Harmon C. McAllister, Ph.D.
The Council for Tobacco Research - U.S.A., Inc.
900 Third Avenue
New York City, NY 10022

Dear Dr. McAllister,

We are writing as co-chairs of the 1993 Gordon Conference on Atherosclerosis to solicit corporate participation and financial support. The conference will be held June 21-25, 1993 at Kimball Union Academy, Meriden, New Hampshire. A preliminary program of this exciting multi-disciplinary conference is attached. There remain a number of openings for 10 minute presentations to showcase late-breaking developments or areas currently unrepresented. We also encourage participants to present posters, which have been very successful in the past few years. Please feel free to suggest speakers or topics.

We have tried to maintain a rigorous disease focus without sacrificing the quality of the basic science to be presented. As such, the conference will provide an up-to-date view of atherogenesis and future strategies for intervention. Gordon Conferences have traditionally stressed interaction between industry and academia. We hope that a representative from your company can participate.

Lastly, the Conference relies in part on corporate donations for support. The pharmaceutical industry has been generous in its support of this endeavor in the past, and we hope that you can continue this tradition. Donations have generally ranged from $1,000 to $5,000. If you are able to contribute, checks should be made out to "Gordon Research Conference-Atherosclerosis Meeting" and sent to:

Dr. Joseph Witztum
Department of Medicine-0682
University of California, San Diego
La Jolla, CA 92093-0682

Please call or write if you need any additional information. Thank you for your consideration.

Sincerely,

Shaun R. Coughlin
